Digital Controllers

EasyProg

EasyProg Programming Key

Programming Ranco® Digital Controllers using the revolutionary EasyProg programming key allows easy programming with storage of nine individual programs. It can copy the information from a standard Ranco controller and download it to other controllers without connection to a PC. It can be connected to the PC through a USB port and change the parameters using the Sitrad® software's Preset Editor. The communication with the instruments has both a RS-485 port and a Serial TTL port. The portable model works without batteries.

SB-41

Sensors

The SB-41 and SB-41-5M Sensors function with thermoplastic polyester cable and individual isolation. They have an operating temperature range of -58°F to 221°F (-50°C to 105°C). The SB59 sensor has an operating temperature range up to 392°F. (200°C) (Used in: TIC-17RGTi, MT-512E 2HP/Log, MT-516E, MT-543E plus/Log, Ti-44E plus and in the solar heating line.)

2 **Year Limited Warranty**
